on 13.2.2003. The norms proposed in the guidelines are under revision and would require approval of Government as per prescribed procedure before the fund can be operationalised.

Urban Reforms Incentive Fund (URIF) envisages to provide reform linked assistance to States. A provision of Rs. 500 crore has been made in the crrent year's budget for the implementation of URIF as part of Additional Central Assistance to Annual Plans of the States. Planning Commission has worked out State-wise allocations on the basis of share of each State in urban population and included the same among States' resources at the time of fixing the size of Annual Plan. The process of release would, however, be initiated by States individually by entering into a Memorandum of Agreement (MoA) with the Central Government. The above position has been brought to the notice of all State Governments along with the draft MOA to be signed by them. This issue was also deliberated upon in the Housing Minister's Conference held on 12.9.2002. General consenus is that urban reforms is a lengthy process and reforms cannot be thrust upon the States.
